Professional Summary

Visual Designer with a business background, who has a unique style and eye for detail. I'm focused on creating meaningful experiences through design. Self-motivated and able to meet deadlines. Currently seeking User Interface Designer roles.

Work Experience

FREELANCE VISUAL DESIGNER

Creative Circle | Washington, DC | 2019 - Present

- Provide support creating visual designs for a diverse range of clients while ensuring all graphics and contents are accurate, timely, compelling, and appropriate for the intended audience.
- Collaborate with point of contacts on strategy meeting, design, and testing of the product concept.
- Communicate and report on the project's status on a daily basis and present prototype of a product to clients.

JUNIOR INTERIOR DESIGNER

Biltmore Design Galleria | Chantilly, VA | 2017-Present

- Assisted designer with design concepts, showroom displays and in-home design projects.
- Maintained excel spreadsheet and other documentation regarding budget, client purchases and marketing efforts.

UI/UX INTERN

Prifina | Remote | 2019

- Collaborated with other interns and intern program participants. Shared feedback and asks relevant questions to promote group discussion.
- Created documentation, style guide and specifications as requested by the project to support the vision and can be used to guide decisions throughout the project lifestyle.
- Gathered and evaluated user requirements in collaboration with other team members.
- Learned how to and assisted with executing all visual design stages from concept to final hand-off to developers.

INTERN AMBASSADOR

Korea Innovation Center | Vienna, VA | 2016

- Conducted a feasibility study with start-up project teams from engineering schools in Korea.
- Contributed in market research and requirement gathering by conducting more than 25 B2B & B2C interviews.
- Learned to develop a business model through utilizing get-out-of-building technique strategy optimized for start-up business.
