HSL: (61, 100%, 62%)

Color Pallet A was a bit different from the color pallet I picked last time using InVision board. Color Pallet B is consisted of complementary colors of Color Pallet A. I chose **Color Pallet A** because I wanted to make the app minimalistic. In order to give the clean & neat feel, I picked white as dominant color and dark gray as support color. For accent colors, I chose grayish blue and orange-ish yellow color. I could have only used grayscale, however, I wanted to give youthful look by using bright warm color as accent color.
